

Dear Michael.

11/25/05

Thank you so much for helping us at CITY House deal with our emergency plumbing issues! You are certainly a "God-send" and your quick response and donation of your talents helped our kids have a more comfortable experience with us. Thanks for helping us get the faucet so quickly & inexpensively! And please thank your son, Alan, for his

help as well.

I hope you realize what a blessing you have been to us... especially me! My first month at CITY House is certainly a whirlwind and having people like you generously donate their time makes my work a labor of love!

With appreciation
